CPA US Road Map

How to Become A CPA (US)

What is a CPA ?

CPA stands for **Certified Public Accountant**.

A Certified Public Accountant is an accounting professional who has met their state CPA license requirements and earned the license.

What does a Certified Public Accountant do ?

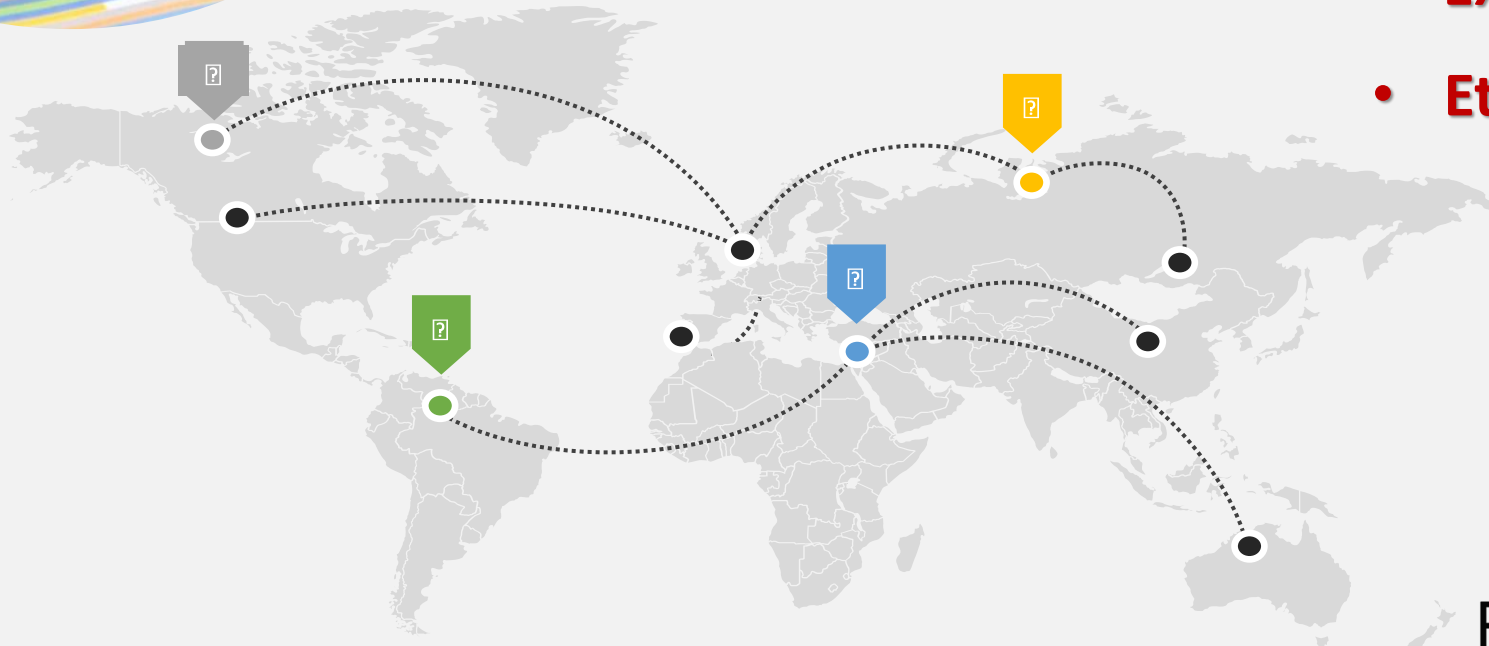

CPA is a professional designation that offers accounting professionals more flexibility and mobility in their career. Not only because it allows them to practice public accounting independently, but because it proves expertise in more advanced accounting areas.

The Four E's of CPA

Education

Every Jurisdictions has education requirements candidates must complete before they're eligible to become a CPA. The minimum requirement is 120 hours of college or post graduate education.

Only have a B.com ? **We got You!**

Pre – education eligibility

Enroll for the “online” M.com – from Amritha University. Appear for the CPA exam during your 1st year of M.com. This bridge course is fully with the CPA curriculum. So focus on CPA studies nothing more!!

Exception (Being Phase out)

If B.com is completed in 1st division from a NAAC ‘A’ University the 3 year B.com would be treated as 4 year of US education. i.e., 120 credits for B.com alone. However, this exception only applies to CPA Exam eligibility, Not to CPA license.

CPA (US) Eligibility ?

**CPA Exam
120 Credits**

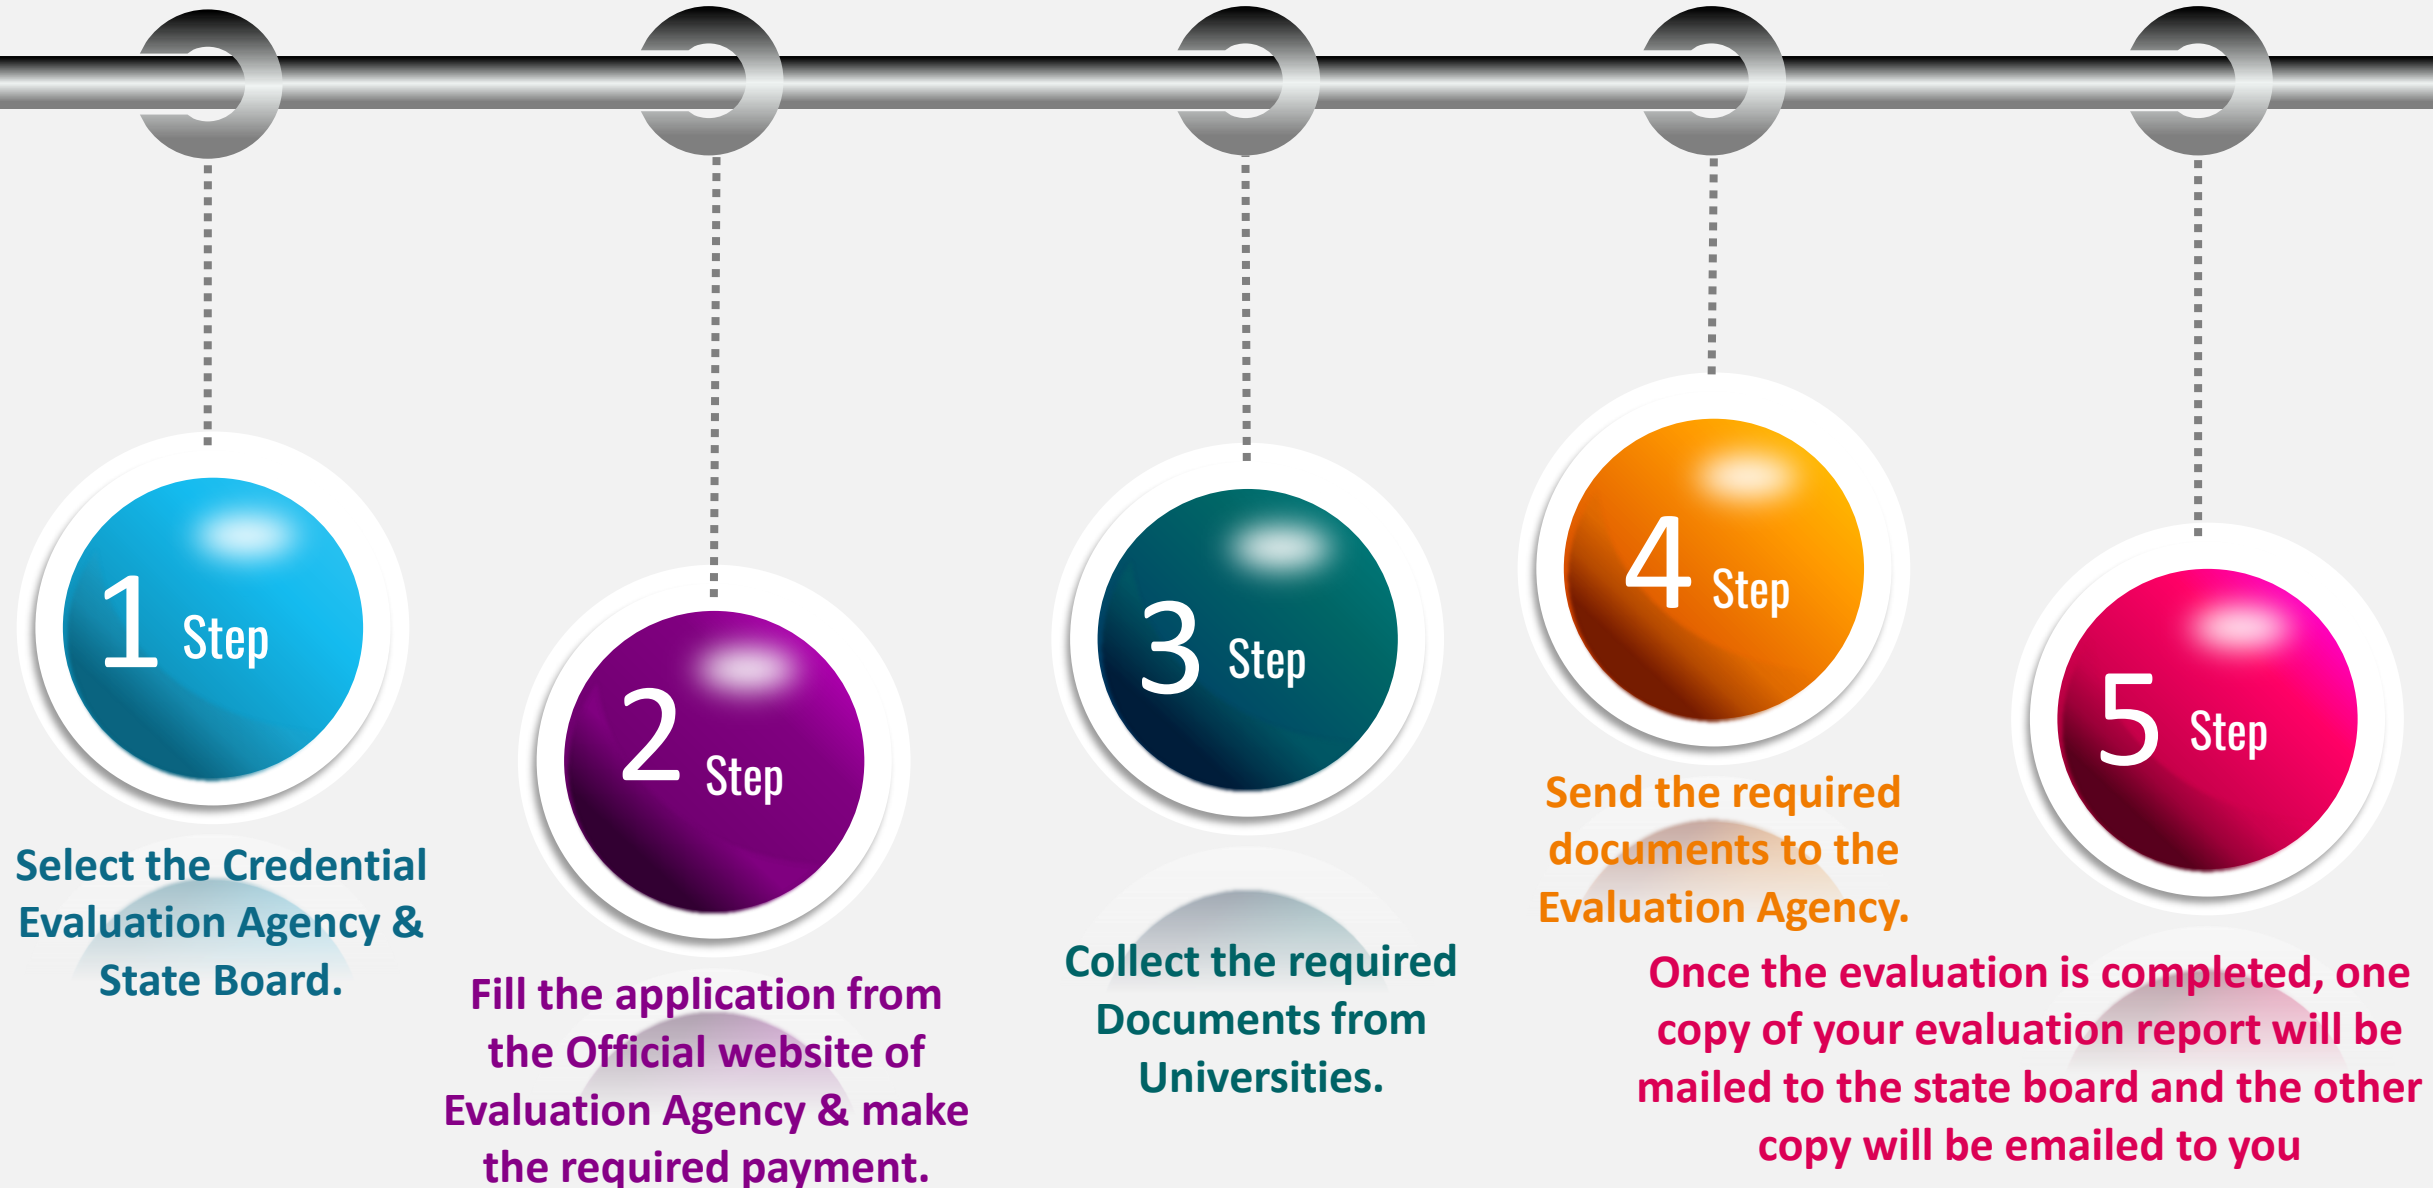

**CPA License
150 Credits**

General Rule : every year of university education in India is equivalent to 30 semester credits of US education

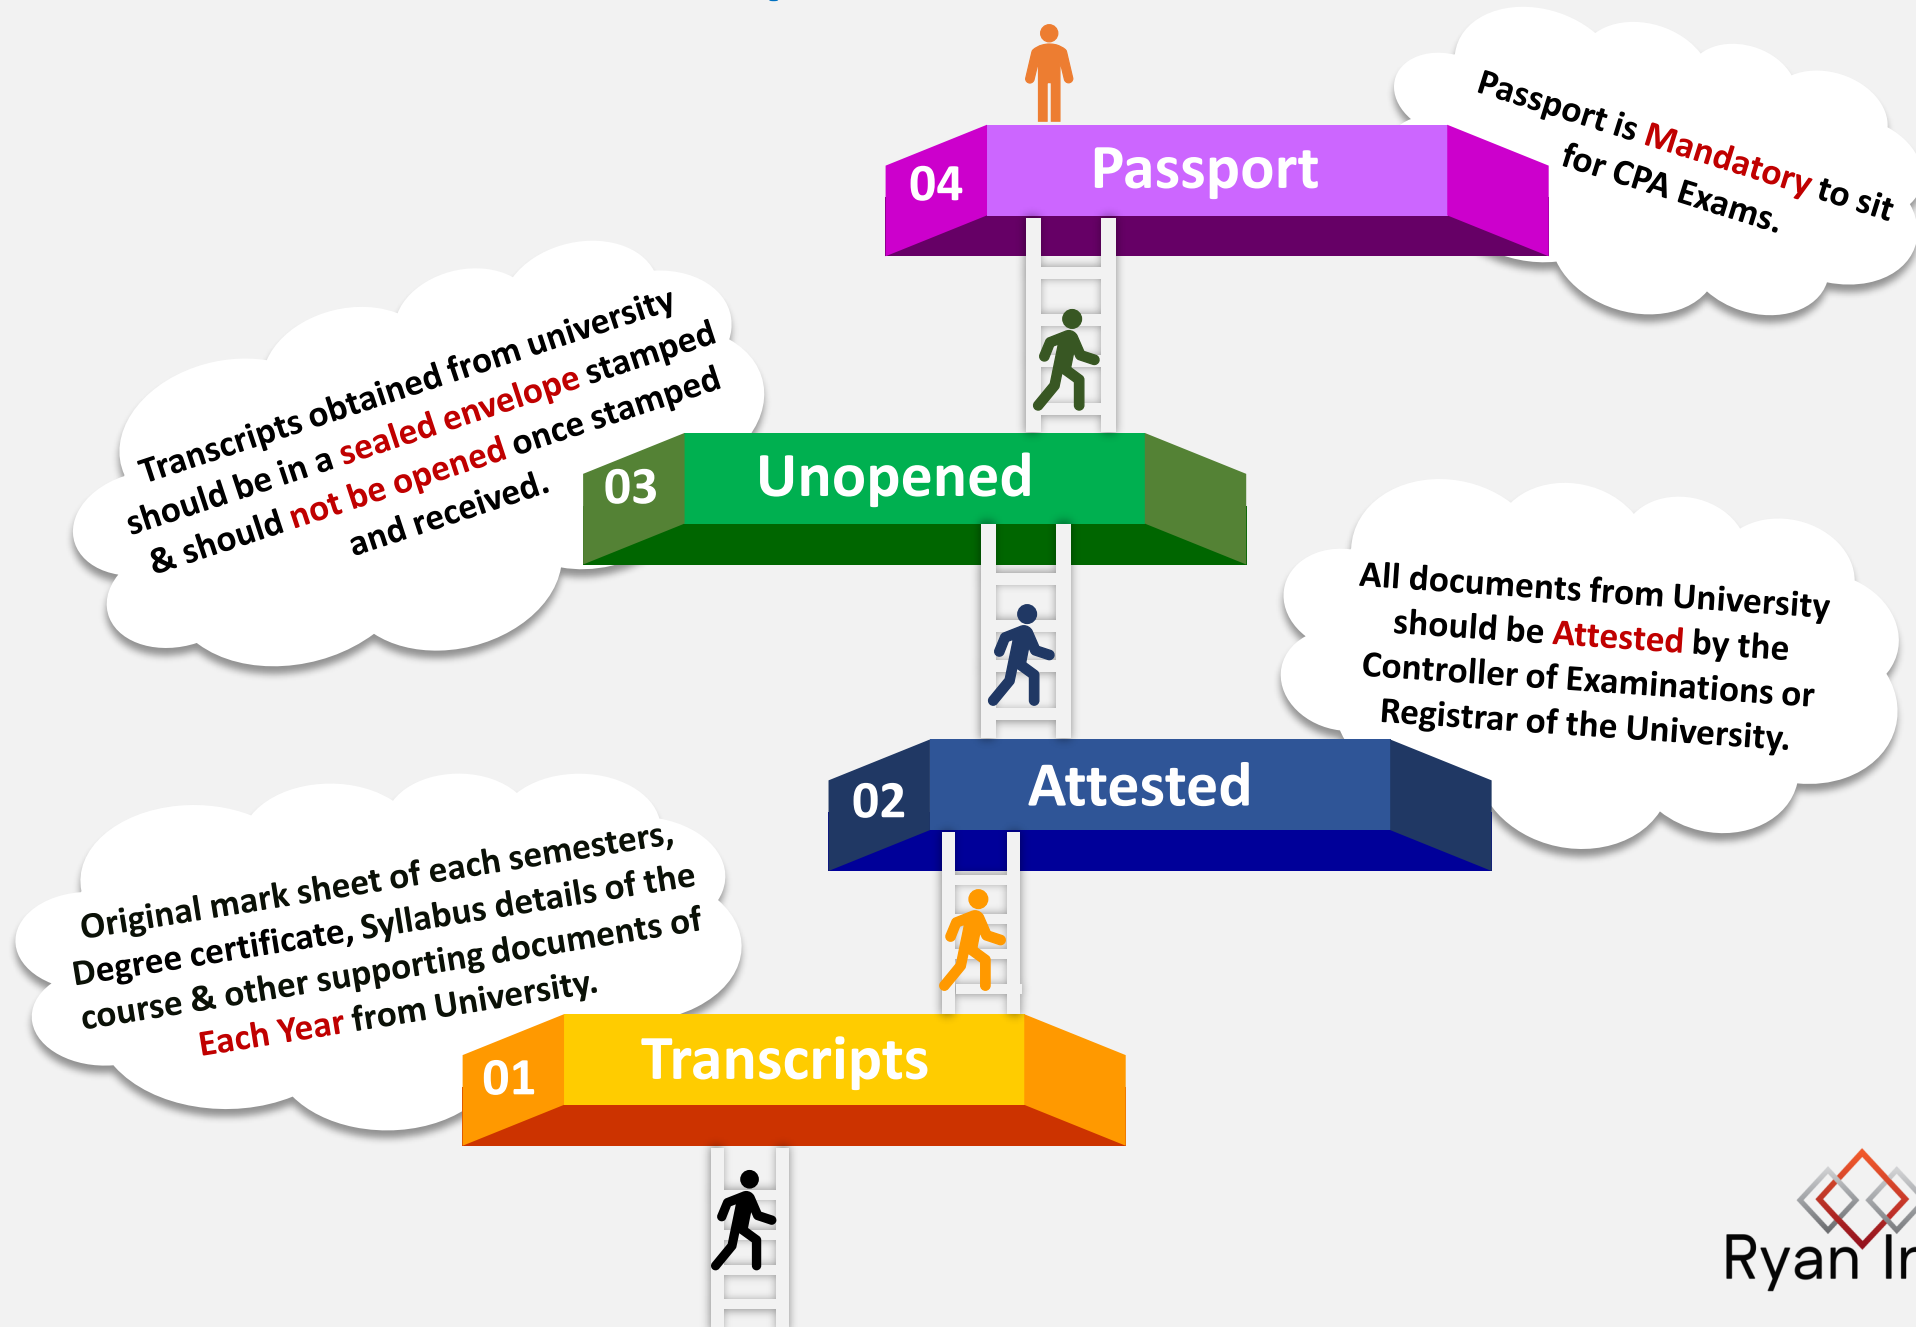

Using 1 year = 30 credits

- $B.com = 3 \text{ year} \times 30 \text{ credits} = 90 \text{ credits}$
- $B.com + M.com/MBA = 90 \text{ credits} + 60 \text{ credits} = 150 \text{ credits}$
- $B.com + CA/CS/CWA = 90 \text{ credits} + 60 \text{ credits} = 150 \text{ credits}$
- CA/CS/CWA recognized by a few states as 2-3 years of US education
